EDUCATION

B.Tech in Computer Science and Engineering (IoT)

MLV Textile & Engineering College, Bhilwara (Raj.)

2023 – 2027 | CGPA: 7.748

TECHNICAL SKILLS

Languages: C, C++

Core Strength: Data Structures & Algorithms

Concepts: Arrays, Strings, Recursion, Dynamic Programming, Greedy, Binary Search, STL, Complexity Analysis

Tools: VS Code

PROJECTS

Hospital Management System – C++

- Designed a console-based application to manage patient records and appointments
- Implemented a custom Min Heap to prioritize patients based on date and time
- Implemented heap operations (insert, delete, heapify) without built-in priority queues

Tic Tac Toe – C++

- Developed a two-player console-based game using structured programming
- Implemented win-condition validation and game-state management
- Focused on clean control flow and modular design

ACHIEVEMENTS

- Winner – College Level DSA Competition (Organized by CSE Department)
- Winner – College Level Ideathon (Organized by Tech Biz Club)
- Solved 800+ problems on LeetCode
- Peak LeetCode Rating: 1679
